A passionate and dedicated MERN stack developer with a strong foundation in web development. Currently pursuing my final year at SPPU University, I have completed an internship at GreenGenx where I gained hands-on experience in building dynamic and responsive web applications. Proficient in React.js, Node.js, Express.js, and MongoDB, with a keen interest in creating scalable and efficient solutions.

WORK EXPERIENCE

GreenGenX Digital Solutions Pune, India

January 2025 – February 2025

Web Developer

- Developed a Resume Parser Web Application to extract and structure data from resumes.
- Implemented text processing techniques to accurately parse key details such as candidate names, contact information, skills, and work experience.
- Built a Crew Registration System UI using React.js, focusing on responsive design and operational efficiency.

India Meteorological Department (Gov. Of India), Pune, India

July 2024 – December 2024

Research Intern

- As a Research Intern at the India Meteorological Department (IMD), I am actively involved in climate data analysis, extreme weather prediction.
- Performed data preprocessing tasks, including data cleaning and preparation, to ensure the accuracy and quality of large-scale climate datasets.

EDUCATION

Bharati Vidyapeeth's College of Engineering Lavale Pune, India

Nov 2022 – Expected June 2026

- Bachelor of Engineering — Computer Engineering (8.6/10)

S.R College Ghanasawangi, Jalna, India

June 2020 – August 2022

- Higher Secondary School (XII'th, HSC) 74.50%
